

January 31, 2019

Dear Members of the Senate and House Appropriations Subcommittees on Higher Education and Community Colleges, Senate and House Fiscal Agencies, and the State Budget Director:

Please accept this report prepared by the study committee identified in Sections 210f and 265c of Public Act 265 of 2018, as outlined below.

*Sec. 210f. "By February 1, 2019, the Michigan community college association, the Michigan association of state universities, and the Michigan independent colleges and universities, on behalf of their member colleges and universities, shall submit to the senate and house appropriations subcommittees on higher education, the senate and house appropriations subcommittees on community colleges, the senate and house fiscal agencies, and the state budget director a comprehensive report detailing the number of academic program partnerships between public community colleges, public universities, and private colleges and universities, including, but not limited to, the following information:*

*(a) The names of the baccalaureate degree programs of study offered by public and private universities on community college campuses.*

*(b) The names of the articulation agreements or baccalaureate degree programs of study between public community colleges, public universities, and private colleges and universities.*

*(c) The number of students enrolled and number of degrees awarded through articulation agreements, and the number of courses offered, number of students enrolled, and number of degrees awarded through on-campus programs named in subdivision (a) from July 1, 2017 through June 30, 2018."*

The Michigan Community College Association (MCCA), Michigan Association of State Universities (MASU), and Michigan Independent Colleges and Universities (MICU) worked with their member institutions to prepare the data in this report. To collect the data, MCCA collected from its 28 member colleges on-site baccalaureate programs and articulation agreements active between July 1, 2017 and June 30, 2018. These data were shared with MASU and MICU who then collected the number of students, courses, and completions in each program or program area from their member institutions. The partnerships with state universities share data for individual bachelor's degree-level programs and includes a separate inventory of other relevant academic partnerships at several universities. The partnerships with private institutions share data in programs aligned to federal reporting categories rather than individual bachelor's-level programs. A summary sheet is also enclosed to give a general overview of the data included in this report.

Thank you for your attention to these important issues. Please contact us with any questions.

Sincerely,

Michael Hansen  
President, MCCA

Daniel J. Hurley, Ph.D.  
Chief Executive Officer, MASU

Robert LeFevre  
President, MICU

Enclosures: Academic Program Partnerships

**Academic Program Partnerships Between Public and Private Colleges and Universities in Michigan  
2017-2018 Academic Year  
Summary Details**

Data included in the spreadsheets is considered a floor as some institutions were not able to report complete information due to data collection and management issues:

All transfer and partnership programs:

- Minimum programs available: 1,119 programs
- Minimum enrollment for 2017-2018: 16,279 students
- Minimum completions in 2017-2018: 4,535 bachelor's degrees conferred

Articulation agreements:

- At least 764 unique articulation agreements between community colleges and four-year public and private higher education partners between July 2017 and June 2018
  - At least 9,720 students enrolled in four-year programs who transfer through specific articulation agreements
  - At least 2,523 bachelor's degrees conferred to students who transferred through specific articulation agreements

On-site baccalaureate programs:

- At least 261 programs offered by four-year institutions in Michigan on community college campuses
  - At least 5,032 students enrolled in on-site baccalaureate programs offered on community college campuses by four-year partners in Michigan
  - At least 2,286 courses offered by four-year institutions on community college campuses as part of these programs
  - At least 1,452 bachelor's degrees conferred to students enrolled through on-site baccalaureate programs

Additional partnerships:

- Some students transfer through other partnerships that are not defined as an articulation agreement or an on-site baccalaureate program. Data submitted identified:
  - At least 94 such programs with:
    - At least 1,527 students enrolled
    - At least 551 bachelor's degrees conferred

MASU, MICU, MCCA Other transfer/collaboration programs

Four-Year Institution	Community College Partner	Academic Program (Do not include articulation agreements or full on-site baccalaureate programs)	Number of Students Enrolled in the Program (July 1, 2017 through June 30, 2018)	Number of Degrees Awarded (July 1, 2017 through June 30, 2018)	Number of Courses Offered (July 1, 2017 through June 30, 2018)	Comments (optional)
Central Michigan University	Macomb Community College	Master of Science in Administration				Transfer students with Community College credit only are not eligible for the Master of Science in Administration program.
