

January 31, 2020

Dear Members of the Senate and House Appropriations Subcommittees on Higher Education and Community Colleges, Senate and House Fiscal Agencies, and State Budget Director:

Please accept this report required in Sections 210f and 265c of Public Act 62 of 2019, as outlined below.

*Sec. 265c. "By February 1, 2020 and February 1 of every even-numbered year thereafter, the Michigan Community College Association, the Michigan Association of State Universities, and the Michigan Independent Colleges and Universities, on behalf of their member colleges and universities, shall submit to the Senate and House Appropriations Subcommittees on Higher Education, the Senate and House Appropriations Subcommittees on Community Colleges, the Senate and House Fiscal Agencies, and the State Budget Director a comprehensive report detailing the number of academic program partnerships between public community colleges, public universities, and private colleges and universities, including, but not limited to, the following information:*

*(a) The names of the baccalaureate degree programs of study offered by public and private universities on community college campuses.*

*(b) The names of the articulation agreements for baccalaureate degree programs of study between public community colleges, public universities, and private colleges and universities.*

*(c) The number of students enrolled and number of degrees awarded through articulation agreements, and the number of courses offered, number of students enrolled, and number of degrees awarded through on-campus programs named in subdivision (a) from July 1, 2018 through June 30, 2019.*

The Michigan Community College Association (MCCA), Michigan Association of State Universities (MASU), and Michigan Independent Colleges and Universities (MICU) worked with their member institutions to prepare the data in this report. To collect the data, MCCA collected from its 28 member colleges on-site baccalaureate programs and articulation agreements active between July 1, 2018 and June 30, 2019. These data were shared with MASU and MICU who then collected the number of students, courses, and completions in each program or program area from their member institutions. However, because of technical challenges, numbers are likely underreported. A summary sheet is also enclosed to give a general overview of the data in this report.

As this is the third time this report has been submitted, **we respectfully suggest that the State of Michigan reconsider how useful this information is in both the form and frequency of its collection.** This is a difficult project to coordinate across all our institutions, and we have found that the data are relatively stable. All active articulation agreements and course equivalencies can now be found at [www.mitransfer.org](http://www.mitransfer.org).

Thank you for your attention to these important issues. Please contact us with any questions.

Sincerely,

Michael Hansen  
President, MCCA

Daniel J. Hurley, Ph.D.  
Chief Executive Officer, MASU

Robert LeFevre  
President, MICU

*Enclosures: Academic Program Partnerships*

**Academic Program Partnerships Among Public and Private Colleges and Universities in Michigan  
2018-2019 Academic Year  
Summary Details**

Data included in the spreadsheets is considered a minimum as some institutions were not able to report complete information due to data collection and management issues:

All transfer and partnership programs:

- Minimum programs of study available: 714 programs of study including:
  - 297 programs of study offered through articulation agreements
  - 225 4-year programs of study offered on-site at community colleges
  - 192 + other transfer agreements between institutions
- Minimum enrollment for 2017-2018: 13,791 students
- Minimum completions in 2017-2018: 4,370 bachelor's degrees conferred

Articulation agreements:

- At least 1,058 unique articulation agreements between community colleges and four-year public and private higher education partners between July 2018 and June 2019
  - At least 8,119 students enrolled in four-year programs who transfer through specific articulation agreements
  - At least 2,673 bachelor's degrees conferred to students who transferred through specific articulation agreements

On-site baccalaureate programs:

- At least 280 programs of study offered by four-year institutions in Michigan on community college campuses
  - At least 3,556 students enrolled in on-site baccalaureate programs offered on community college campuses by four-year partners in Michigan
  - At least 2,000 courses offered by four-year institutions on community college campuses as part of these programs (prior collection data)
  - At least 994 bachelor's degrees conferred to students enrolled through on-site baccalaureate programs

Additional partnerships:

- Some students transfer through other partnerships that are not defined as an articulation agreement or an on-site baccalaureate program. Data submitted identified:
  - At least 192 such programs of study with:
    - At least 2,116 students enrolled
    - At least 703 bachelor's degrees conferred

## Additional On-Demand Information on Active Transfer and Articulation

In addition to the enclosed report, Michigan colleges and universities that participate in the Michigan Transfer Network at [www.mitransfer.org](http://www.mitransfer.org) provide information to students on articulation agreements and transfer guides. This information is easily located from the institution's profile page at <https://www.mitransfer.org/colleges-universities>.
